Cisco Cius Developer Program for Independent Software Vendor Developers

Extend your enterprise apps to the Cisco® Cius™ business tablet. Integrate new capabilities with Cisco architectures. Gain enterprise mobility market momentum with sales to Cisco customers and partners.

Introducing the Cisco Cius Developer Program in the Cisco Developer Network

The Cisco Cius Developer Program gives you everything you need to deliver apps and grow revenue.

- **Move fast** with programs, tools, training, and support optimized specifically for independent software vendors (ISVs). Customize and differentiate your apps with distinctive Cisco Cius tablet feature sets, Cisco Collaboration application programming interfaces (APIs), and Cisco Virtualization architecture.
- **Gain an audience** of enterprise buyers in volume through the Cisco AppHQ and Cisco (del-Content) Developer Network (CDN) marketplace.
- **Add the strength** of the Cisco marketing and field sales force to maximize your success.
- **Get to market faster** with Cisco Remote Access Validation Environment (RAVE) – featuring rich, customizable, cloud-based developer environment and including tools, libraries, and hands on labs.
- **Take full advantage** of your Eclipse open source integration skills.
- **Gain Cisco endorsements** with validated apps and skill certifications.
- **Offer your Cisco Cius tablet and Android code expertise** to Cisco customers and partners.

Cisco Cius - designed to bring mobility to businesses

Why Cisco?

Cisco is the worldwide leader in networking and enterprise infrastructure that transforms how people connect, communicate, and collaborate. We can help you get ahead in the post-PC era through several advantages:

- Long-term relationships with more than 100,000 enterprise networking customers
- Global presence, brand preference, press and analyst coverage, and product placement in TV and film
- World-class IT technology, including Cisco Borderless Networks, Cisco Collaboration, and Cisco Virtualization architectures
- A consistent partner-centric focus, customized to your needs

Cisco Cius Platform Features

- Real-time mobile high-definition (HD) video communications
- Interoperability with Cisco HD video endpoints, including Cisco TelePresence® conferencing and Cisco TelePresence System EX Series
- Enterprise-grade security and intellectual property protection
- Micro-USB port, Micro-HDMI port
- Optional HD media station that offers a display port and 3 USB 2.0 ports
- File system for greater on-device control and access to files and data
- Location services including GPS

Sell Your Apps to the Global Mobile Workforce

In today's post-PC era, enterprises value highly secure mobile communications and collaboration tools. The Android-based Cisco Cius platform, backed by Cisco's vast network resources, is meeting that need.

How do I get started?

Register today in the Cisco Developer Network to join the Cius Developer Program: **http://www.ciusdeveloper.com**
