

URL API WBS 29.8 RELEASE NOTES

URL API Support CMR/PMR (Changes to m.php)

Command	Operation	Function Impact
AT=HM	Host to start meeting	<p>Can start CMR/PMR Meeting success.</p> <p><i>No new parameters or new error codes.</i></p>
AT=JM	Attendee to join meeting	<p>Can start CMR/PMR Meeting success.</p> <p><i>No new parameter, no new error codes.</i></p>
AT=IM	Host to start instant meeting	<ol style="list-style-type: none"> 1. If non-CMR, this starts a regular instant meeting. 2. If CMR is enabled <ol style="list-style-type: none"> 2a. If the user is not PMR-enabled or has not set the option "Use personal meeting room for all my instant meetings" in his profile (mywebex/my Profile/Instant meetings), then start CMR Instant meeting 2b. If the user has PMR <i>AND</i> has set the option "Use personal meeting room for all my instant meetings" in his profile (mywebex/my Profile/Instant meetings), then this invokes the PMR successfully. <p><i>No new parameter, no new error codes.</i></p>
AT=SM	Host to Schedule meeting	<ol style="list-style-type: none"> 1. If CMR is enabled for user, you can schedule a Meeting with the CMR feature as Page. 2. The Meeting Center with all enabled Support types (except PCN) will have the CMR feature. 3. The Meeting Center with all enabled Support types (except PCN) will turn off PKI/E2E feature whether or not Site/SessionType supports it. 4. The Meeting is deleted automatically when ended (CMR meetings will be deleted after the meeting is ended, so the flag AutoDeleteAfterEnd parameter is ignored). 5. This supports only webex/Tsp Audio. For other audio types, it returns an error (RS=TelephonyIsNotSupported). (Site admin prevents this scenario when performing add/edit user. If a user enabled CET, the meeting allows only Webex Audio or TSP.) The TC parameter allows values from 1 to 4. For all other values, this returns an error (RS=TelephonyIsNotSupported). 6. For CMR meetings, the first attendee will be the presenter. <p><i>No new parameters, no new error codes.</i></p>

AT=EM	Host to Edit Meeting	<p>Can edit CMR Meeting success.</p> <ol style="list-style-type: none"> 1. Edit an existing CMR meeting. 2. Convert to a CMR meeting when a non-CMR meeting is edited and saved. (After a user is assigned with CMR privilege, the previously scheduled non-CMR meeting will be changed to a CMR Meeting, assuming all requirements are met. The requirements are the same as those of AT=SM.) 3. Convert to a non-CMR meeting when a CMR meeting is edited and saved. (After the CMR privilege of a user is removed, the previously scheduled CMR meeting will be changed to a normal meeting.) 4. Edit a PMR meeting, return error (RS=TelephonyIsNotSupported).
AT=LM	List Meetings	<ol style="list-style-type: none"> 1. You can list CMR meetings with other meetings. 2. The PMR meeting will be filtered out.
AT=OM	List In-progress Meetings	<ol style="list-style-type: none"> 1. You can list CMR meetings with other meetings. 2. The PMR meeting will be filtered out.
AT=DM	Host to Delete Meetings	<ol style="list-style-type: none"> 1. You can delete CMR meetings 2. You can't delete the PMR meeting. This will return the error (RS= InvalidMeetingType).
